

I M P A C T V E N T U R E S

REIMAGINE HOW WE LEARN, LIVE, AND CONSUME

By deploying catalytic early-stage capital to diverse change agents across the globe, we unlock impactful ventures to build a more sustainable future.

1

Take global action now

Tackle the most pressing interlinked societal challenges

Globally, only **38**% of companies were aligned, while almost **55**% were misaligned or neutral with the UN Sustainable Development Goals (SDGs) in 2020.

The G20 countries represent close to or more than **50% of the total performance gap** for each UN SDG in 2020.

2

Empower diverse perspectives

Harness the benefits of supporting a diverse set of founders

Companies in the top quartile for gender diversity are 15% percent more likely to have financial returns above their national industry medians in 2015.

Companies in the top quartile for racial and ethnic diversity are 35% more likely to have financial returns above their national industry medians in 2015.

Companies with above-average diversity scores report **19% more average** innovation revenue in 2017.

3

Leverage science for impact

Make use of scientific data to create measurable social impact

Over **4 million scientific articles** related to specific UN Sustainable Development Goals were published between 2015 - 2019.

Despite the large volume of research on global challenges (e.g., climate research papers are among the highest cited, 37% above the world's average between 2015 - 2019), there is a huge "research-practice gap" that we can address in tackling these imposing challenges.

Take global action now

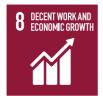

Tackle the most pressing interlinked societal challenges

We invest patient catalytic capital in 4 strategic areas, aligned with UN Sustainable Development Goals

INCLUSIVE DIGITAL ECONOMY

How do we make education, skills, and jobs accessible to everyone in a way that meets societal needs?

CLIMATE TECH & SMART CITIES

How can we improve climate and urban resilience and use renewable energy technology to future-proof our cities?

SUSTAINABLE CONSUMPTION

How do we educate consumers on the ethics of their purchases and build sustainable supply chains in a globalized world?

HEALTHCARE & LIFE SCIENCES

How can we invest in innovation that prioritizes the societal impact of better healthcare access and outcomes?

Empower diverse perspectives

Harness the benefits of supporting a diverse set of founders

We invest in multiple types of early-stage entities to reach a wide range of game-changing innovators

ENTREPRENEURS & STARTUPS

\$50K to \$100K

INVESTMENTS

Using a gender and racial equity lens, we provide initial funding for the next frontier of international rising stars who want to make the world a better place.

INCUBATORS & ACCELERATORS

\$100K to \$500K

INVESTMENTS

We invest in and support platforms that can help us identify driven and diverse change agents as early in their journey as possible.

EMERGING FUNDS/VCs

\$100K to \$500K

INVESTMENTS

We invest in first-time, emerging, female co-founded impact fund managers and Fund of Fund managers working in the preseed and very early "soil" stage.

ACADEMIC INSTITUTIONS

\$10K to \$100K

INVESTMENTS

We sponsor impact pitch day competitions, commercialization of intellectual property, matched funding and co-investments with university capital.

Ст /

5

Leverage science for impact

Make use of scientific data to create measurable social impact

We take a close look at empirical evidence and analytics to understand the numbers behind the story

CARBON FOOTPRINT

Carbon emissions and offset tools, net zero programs, business certifications

INCLUSION & DIVERSITY

Hiring of leadership and workforce from under-represented backgrounds, inclusive access

CORPORATE POLICY

Annual diversity and inclusion surveys, corporate code of ethics, whistleblowing policies

CIRCULAR ECONOMY

Reduced or recycled waste, recycled packaging, air pollution, upcycled products

STAFF WELLBEING

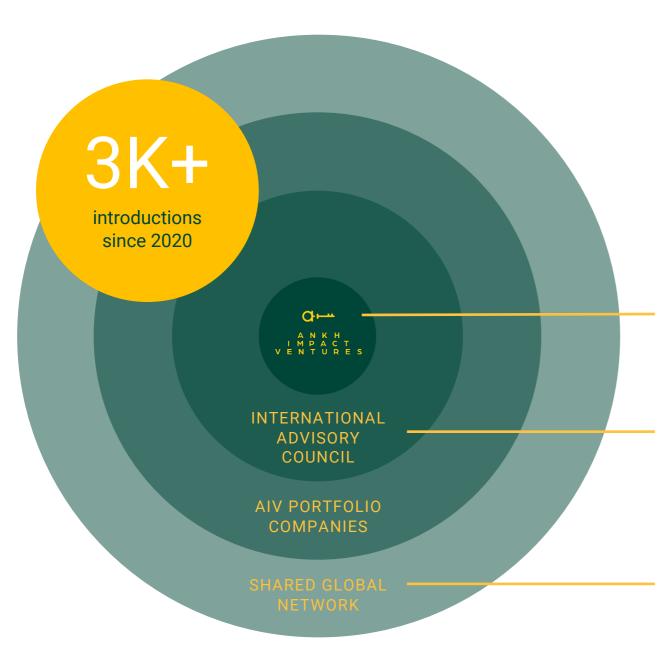

Living wages, study support, flexible work opportunities, mental/health care benefits

CYBERSECURITY & DATA GOVERNANCE

Training, cybersecurity controls, data infrastructure, compliance and data regulations

Our active allyship multiplies opportunities across the entire AIV ecosystem, cross-pollinating connections between our portfolio, advisors, consultants and international network

We support founders with our valuable contacts and business relationships

Portfolio companies can grow exponentially thanks to economies of scale at every level in our ecosystem

CORE STRATEGIC PLATFORM

Experienced, diverse team of employees, consultants, and strategic partners help take founders to the next level

INTERNATIONAL ADVISORY COUNCIL

Venture capitalists, corporate C-suite executives, scientists, industry experts, philanthropists, social enterprise leaders, seasoned entrepreneurs, environmentalists, professors, designers and many others

GLOBAL SYNERGISTIC NETWORK

AIV enables connections through its participation in and sponsorship of live events, roundtables, pitch competitions, academic and government programs, social media, founder chat groups, press interviews and public relations

GENDER EQUITY

We focus our investments on women-led businesses to leverage the proven strengths of female founders while also addressing the gender investment gap

The gender investment gap persists

MEN OUTNUMBER WOMEN FOUNDERS

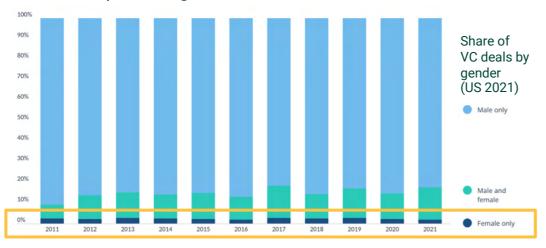

Out of 100 countries studied, the percentage of men who start a business exceeds the percentage of women (1)

GENDER REPRESENTATION GAP AT VCs

Only 5% of partners in European venture capital funds – and only 15% in US venture capital funds – are women (2)

FEMALE FUNDING GAP

In 2021, female entrepreneurs received only 1% of venture capital investment in Europe and 2% in the United States – the lowest percentage since 2016 (3)

Female founders perform better on many dimensions

MORE THAN 2X BETTER PERFORMANCE

Research shows that start-ups (co)founded by women have higher growth, generating about 10% more revenue over a period of five years – that's 2.5 times more revenue generated per \$ invested compared to all-male founder teams (4)

BETTER RISK MANAGEMENT

A study found that female entrepreneurs are less likely to overestimate their track record (5) – even though their businesses are 25% more likely to outperform average peer EBIT margins (6)

A POSITIVE & INCLUSIVE WORK CULTURE

Teams led by women are reported to be more communicative, collaborative, and open to learning (7) and hire 2.5 times more female employees than all-male founder teams (8)

OUR PORTFOLIO

Global footprint with investments in France, Germany, UK, US

SUSTAINABLE CONSUMPTION

CASE STUDY: 50INTECH

Aim for a 50% representation of women in tech by 2050

www.50intech.com

CAROLINE RAMADE
FOUNDER & CEO

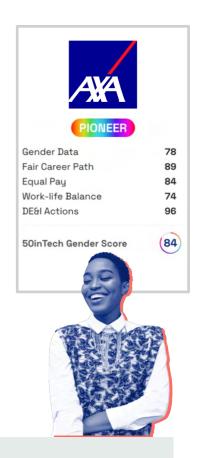

JULIEN LONDEIX
FOUNDER & CTO

FOUNDED 2018 · PARIS, FRANCE · 14 EMPLOYEES · SEED STAGE STARTUP

We believe women must participate equally in the shape of the products of the future, which impacts all of society. Women are 52% of humanity, we are a minority only in tech. It's an emergency to retain and attract women in the tech industry and make the tech industry more inclusive.

50inTech is on a mission to achieve 50% representation of women in tech by 2050 since discrimination leads 1 of 2 women today to leave tech. To retain, attract and accelerate their careers, 50inTech's all-in-one platform uses gender scoring and the most inclusive company screening to match women skilled in tech with the most inclusive companies.

KEY SUCCESSES

- · B2B SaaS model saw 126% of growth last year
- 100 clients
- +30K women talents

FUTURE PLANS

Extension in Europe (UK, GE)

CASE STUDY: ANOTHER TOMORROW

Model a new future for fashion

AnotherTomorrow

FOUNDED 2018 · NEW YORK, NY, USA · 11 EMPLOYEES · SERIES A STARTUP

www.anothertomorrow.co

VANESSA BARBONI HALLIK FOUNDER & CEO

Fashion is deeply flawed as a system with material and wide-ranging negative externalities. We exist to model holistic change from sourcing to innovative business models, treating clothing as an asset.

Another Tomorrow is the market-leading accessible luxury brand with a best-in-class Authenticated Resale program, full product line digitalization and bespoke farm-to-closet supply chains.

KEY SUCCESSES

 DTC customers in 40 countries and distribution relationships with the top global retailers

FUTURE PLANS

- · Scale the core brand internationally
- Leverage our learnings from the power of digitalization and Authenticated Resale to further evolve our technology platform to accelerate recommerce

CASE STUDY: BREAKTHRU

Tiny movement-based breaks that energize teams

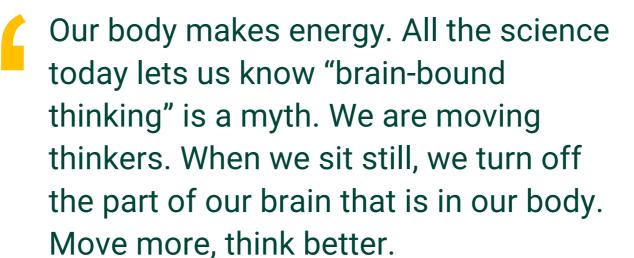

breakthru

www.breakthru.me

FOUNDER

FOUNDED 2020 · VENICE, CA, USA · 8 EMPLOYEES · SEED STAGE STARTUP

Breakthru is a tool for teams, work and school that unleashes the natural synergy between motion and mind in all parts of your day, across a lifetime, for mental and emotional wellbeing.

KEY SUCCESSES

 Used in over 39,000 organizations, in 72 countries, helping kids and grown ups take breaks to boost their physical and mental wellbeing

FUTURE PLANS

 Immersive movement based breaks, delivered across all platforms, for all ages. Powered by AI, spatial computing, and our bodies in motion. To help us learn how to use the part of our brain that is in our bodies.

CASE STUDY: CIDA

Circular Web3 platform for phygital luxury

SUSANNE HAHN

FOUNDER

FLORIAN HOFMANN **FOUNDER**

We built CIDA as a nucleus for Web3 solutions in the circular economy. Today, we're leading the transition to phygital and circular luxury with our partner brands.

CIDA is a Circular Re:Design Platform to transform luxury waste components into lifestyle products for a phygital age. The vision of CIDA is to overcome the "take make waste" approach in the luxury industry.

FUTURE PLANS

- · Starting within the automotive industry, CIDA will be able to cross their unique Upcyling-NFT solution to other luxury verticals
- · Next financing round will be announced after signing the first major brand deal within 2022

CASE STUDY: DOPAGE

Overdose prevention education to protect students

www.dopa.ge

All overdoses are preventable.

FOUNDED 2022 · LOS ANGELES, CA, USA · 7 EMPLOYEES · PRE-SEED STARTUP

DopaGE teaches students how to prevent, recognize, and respond to overdoses in the way they like to learn. Every college student in the United States needs protection against overdose – now the leading cause of death in their age group. DopaGE takes the mystery out of illicit substances for students and standardizes illicit drug education to promote less suffering and death related to substance use. Developed with emergency medical personnel, neuroscientists, and UX researchers, DopaGE is designed not just to teach our students about the subjective harm profiles and effects of illicit drugs, but to engage them. It is built to feel like they are playing their favorite video games and watching their favorite cartoons because high engagement means high recall ability.

FOUNDER & CEO

AMANDA GRENNAN CO-FOUNDER & COO

KEY SUCCESSES

 Of over 300 college students surveyed, 95% prefer DopaGE's teaching style over any other substance use education they had previously received

FUTURE PLANS

- Train 100,000 students in overdose prevention and response by 2025
- Scale across not just universities, but into horizontal markets like corporations and insurance as well

CASE STUDY: E2JDJ

Early-stage VC fund focused on AgriFood tech and science

 e^2

www.e2jdj.com

STEPHANIE DORSEY
FOUNDER

COREY JONES
FOUNDER

FOUNDED 2021 · NEW ORLEANS, LA, USA · 3 EMPLOYEES · PRE-SEED to SERIES A FUND

How you do anything is how you do everything. It's important for us to give it our all with a deep commitment to excellence on every level when it comes to running the firm as well as our day to day lives.

E²JDJ focuses on scalable, high growth and early-stage innovative businesses that digitize and drive efficiencies and productivity across the food supply chain that improve the quality, resilience and sustainability of the food system, and ultimately human and planetary health.

KEY SUCCESSES

 The firm has made 12 investments in exceptional companies alongside strong co-investors such as NEA, Greylock, DCVC and GV. The firm has leading investors including both institutional and large family office capital.

FUTURE PLANS

 Build an enduring financial firm strong enough to survive multiple generations of owners and spoken of in the same breadth as the greatest financial institutions in the industry.

CASE STUDY: EDEN LABS

Increase the efficiency and efficacy of the cloud

Eden Labs

www.edenlabs.cloud

SOFIA ASSAB FOUNDER

DEVON TIETJEN FOUNDER

FOUNDED 2021 · NEW YORK, NY, USA · 2 EMPLOYEES · PRE-SEED STARTUP

Our vision is to bring "the cloud" into a space of accessibility, increased creativity, sustainability and equity. Our blockchain technology will allow for companies and individuals to have true control over their data and digital identities.

Eden Labs hopes to give people control back over their data in the most sustainable and equitable way.

KEY SUCCESSES

 We have successfully run our prototype code on a local server. We are now working towards demonstrating our prototype on the cloud.

FUTURE PLANS

 Our technology is able to be adopted by a multitude of industries (any industry that currently uses the cloud).
 Our vision is for the Eden Labs blockchain to change the way both current and future companies handle users' data.

CASE STUDY: ENTR

The source of truth for food and beverage industry regulation

www.entrtechnologies.com

FOUNDED 2020 · AUSTIN, TX, USA · 3 EMPLOYEES · PRE-SEED STARTUP

We are passionate about improving our food system. By becoming the source of truth for food regulation, we can help the companies that feed us, do better — having a massive impact on the health of consumers and our planet.

ENTR is an enterprise SaaS platform that navigates food and beverage companies through complex regulations so they can create healthier, more sustainable products. Powerful AI allows companies to seamlessly understand the data behind every ingredient and know not only how an ingredient interacts with local-to-global regulations but also its sustainability impact, health impact, shelf stability, taste, texture, and how it combines with other ingredients.

KEY SUCCESSES

- 11 design partners (early users) including Daily Harvest, JUST Egg, Saffron Road, Yumi, and more.
- Investors include Plug & Play Ventures, SOSV, Future Communities Capital, Google/Microsoft execs, and more

FUTURE PLANS

 Achieve market share within the mid-market, then expand up-market to CPG conglomerates.

CASE STUDY: HIRIZE

Revolutionize recruitment with AI, one hire at a time

ESRA KAYGIN FOUNDER & CEO

Our vision is to transform the hiring process through cutting-edge AI technology, enabling companies to make data-driven decisions and find the right talent quickly and efficiently.

Hirize is the industry's most advanced Al-powered resume parser and matching API. By using the latest in AI technology (OCR, NLP, Deep Learning AI and GPT), Hirize extracts data from HR documents with the greatest accuracy in the industry (over 90%, compared to the 60-80% current market standard).

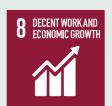

KEY SUCCESSES

- Launched platform with positive feedback from over 380 Beta users and saw a significant increase in the number of successful job matches and 30% more qualified candidates within the same candidate pool.
- Partnership agreements with major companies and organizations such as OpenAI, AWS/Amazon and Microsoft.

FUTURE PLANS

 Develop new Al-driven features and expand to additional stages of the recruitment process (such as onboarding and performance management) as well as new markets.

EREN YASARKURT FOUNDER & CTO

CASE STUDY: INTERSTELLAR LAB

Preserve life on Earth and expand it in space

FOUNDED 2018 • US / FRANCE • 32 EMPLOYEES • SEED STAGE STARTUP

If you can dream it, you can build it.

Interstellar Lab's mission is to preserve life on Earth and expand it in space. Our first focus is plant life.

We develop and build inflatable, autonomous and controlled-environment pods that recreate perfect climatic conditions for plants to grow, on Earth and in space.

FOUNDER & CEO

KEY SUCCESSES

- 200 orders for controlled-environment greenhouses (BioPod) from natural ingredients, cosmetics, pharmaceuticals, and food/beverage companies
- 10 BioPods in production, 1 fully functional installed
- 2 NASA contracts for food production systems in space
- \$7M raised from business angels and VCs
- Team from NASA, SpaceX, Dassault, Airbus, Agricool, Biomerieux

RELATED UNITED NATIONS SDGs

FUTURE PLANS

- Build BioPod factory to increase production capabilities and meet customer demands
- Grow team to 60 people in 8 months
- · Install first BioPods at customers' location
- · Launch first system in space

CASE STUDY: JOYDAYS

Create delicious blood sugar friendly snacks

www.getjoydays.com

AMY COHN
FOUNDER & CEO

FOUNDED 2021 · LOS ANGELES, CA, USA · 2+ EMPLOYEES · PRE-SEED STARTUP

We are a food company focused on health equity and accessible solutions for people with chronic conditions.

Joydays creates delicious blood sugar friendly snacks, developed with top dietitians and the former president of the American Diabetes Association. 51% of the US population has prediabetes or diabetes, making it the largest epidemic of our time. With no modern brands tackling this massively underserved diabetes market, Joydays has a first-in-market innovative product that will capture a portion of both the \$12B Diabetic Snacks Market and \$99.79B Reduced Sugar Snacks Market respectively.

KEY SUCCESSES

- Best of 2022 Nosh nominee; accepted into Startup Health, a global collective of leading healthcare entrepreneurs tackling the biggest moonshots of our time.
- Launched with Breeze Airlines and in Delta terminals at LAX – 3 re-orders in a month

FUTURE PLANS

- Launching more retail doors plus Amazon in 2023
- Hospital distribution and hotels

CASE STUDY: KIND DESIGNS

Save coastal communities from rising sea-levels

FOUNDED 2021 • MIAMI, FL, USA • 6 EMPLOYEES • SEED STAGE STARTUP

www.kinddesigns.org

FOUNDER & CEO

We are the first generation to feel the effect of climate change and the last generation who can do something about it.

- BARACK OBAMA

Kind Designs is saving 507 coastal communities from rising sea-levels by 3D Printing living seawalls that function as reefs, sequester carbon and collect essential data.

KEY SUCCESSES

- \$4M in pre-launch orders
- · Currently printing panels in Miami

FUTURE PLANS

 Scale globally and empower contractors in all at-risk cities by providing them financing for their own 3DPrinters, local materials and custom designs.

Expand global access to quality cervical healthcare

Mission-Driven Tech™

missiondriventech.com

FOUNDED 2022 • NEW YORK, NY, USA • 2 EMPLOYEES • PRE-SEED STARTUP

EVE MCDAVID

DR. ONYINYE BALOGUN

CO-FOUNDER &

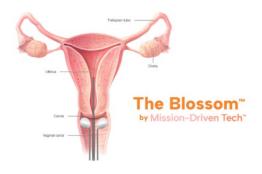

CHIEF MEDICAL OFFICER

Women and physicians deserve the safest treatment to cure cervical cancer.

Mission-Driven Tech is a new women's health venture dedicated to the transformation of gynecologic cancer care with modern technology. In collaboration with Weill Cornell Medicine, Mission-Driven Tech will address systemic gender and racial inequities and expand access to the quality of care all patients deserve. Mission-Driven Tech is developing digital and hardware solutions to modernize the entire cervical healthcare continuum, starting with an insight-driven content app for the 167M US persons with a cervix and the providers who treat them, and a next-gen Brachytherapy device designed to optimally fit the anatomy of each patient undergoing treatment.

KEY SUCCESSES

- Alignment with global WHO Cervical Cancer Elimination initiative
- 2022 Weill Cornell Medicine Business Plan Challenge Winners
- 2023 TechStars powered by JP Morgan (finalist, selection pending)

FUTURE PLANS

- 2023 TOUCH in-market launch
- 2025 Blossom FDA approval

CASE STUDY: PAEON

Smart robotics for the underrepresented amputee community

www.paeon.co
website under construction

CRISTIAN ROGERS
FOUNDER & CEO

FOUNDED 2020 • IRVINE, CA, USA • <10 EMPLOYEES • SEED STAGE STARTUP

A decent invention solves an obvious problem, a good invention solves multiple obvious problems, a great invention solves problems you can't even imagine.

Paeon is a first-of-its-kind robotics company that develops natural, affordable and adaptive upper limb prostheses. Paeon's patent-pending product eliminates the need for an amputee to get a custom prosthesis because it grows with them, an especially useful feature for children age 6 and up. Since our prostheses physically adapts to the user, it can simply be ordered online for 98% faster delivery than any traditional prostheses.

KEY SUCCESSES

 Winner of the Impact Founders Pitch 2022 Competition

FUTURE PLANS

- Launch first product line in 2023 and second product line by 2025
- Finalize initial key partnerships with select organizations in 2023

CASE STUDY: PINK SALT VENTURES

Early stage investors in female-led technology companies

PINK SALT VENTURES

www.pinksaltventures.com

SAMIRA ANN QASSIM
CO-FOUNDER & PARTNER

SALONI BHOJWANI
CO-FOUNDER & PARTNER

FOUNDED 2019 • UK, US, EU • 2 GENERAL PARTNERS • PRE-SEED & SEED FUND

We want to back the next generation of self-made female billionaires.

Pink Salt Ventures invests in female-led technology companies building a better world in health, wealth, work and play. Cofounded by former operators and entrepreneurs, Pink Salt Ventures Fund I was launched in 2022. Samira started the firm with a proof of concept vehicle in 2019, investing in 6 portfolio companies. When she met Saloni who was angel investing in the space with the same entrepreneurial philosophy and approach, they found a meeting of minds. The GPs teamed up in 2021 to launch the institutional phase of Pink Salt Ventures.

KEY SUCCESSES

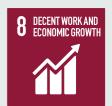

- Top quartile performance from portfolio companies
- · Prior investments in 2 unicorns
- Selected for Goldman Sachs Emerging Manager Program
- Featured in Sifted, TechCrunch, Forbes, Nature, and Business Insider

FUTURE PLANS

- Launch subsequent funds to address the trillion-dollar opportunity female founders represent
- Make top tier returns synonymous with female founders

CASE STUDY: PLANIT PONICS

Democratizing urban agriculture to address food inequity

www.planitponics.com

FOUNDER & CEO

FOUNDED 2022 · BAY AREA, CA, USA · 3 EMPLOYEES · SEED STAGE STARTUP

Planit Ponics' applications of hydroponics can empower communities globally as part of a larger movement to revolutionize the way food is grown and consumed.

Planit Ponics is democratizing urban agriculture to address food inequity through sustainable and scalable technology such as innovative hydroponic systems, patent-pending solid and liquid nutrients, and urban farming education.

KEY SUCCESSES

- Acquisition of retail hydroponics store in Santa Rosa, CA (closing in 2Q 2023)
- Placed 4th out of 258 applicants at TCU Values & Ventures pitch competition
- Signed 2 educational partnerships to pilot urban farming curriculum with students

FUTURE PLANS

- Offer an agritecture product line expansion as well as project consulting for hydroponic community gardens
- Improve B2B direct sales

CASE STUDY: PLAYDATE

Provide a stable, fulfilling upbringing to children worldwide

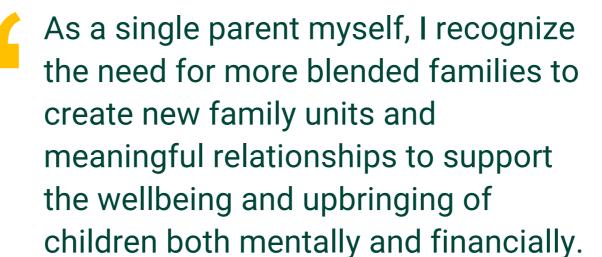

www.gotoplaydate.com

FOUNDER & CEO

FOUNDED 2021 · LONDON, UK · 3 EMPLOYEES · SEED STAGE STARTUP

Playdate makes dating accessible for single parents (a market of 320 million people worldwide), allowing them to connect with like-minded single parents, and providing them with discounted childcare solutions in the process.

KEY SUCCESSES

Playdate is the UK's first dating app for single parents.
 Since launch in April 2021, Playdate has grown organically to 10,000 users, with minimal marketing.

FUTURE PLANS

- Become the world's leading dating app for single parents
- Grow significantly in the UK market in 2023, scale the business to the US in 2024 and then spread worldwide.

Next-generation personalization through AI and psychology

FOUNDER & CEO

FOUNDED 2020 · NEW YORK, NY, USA · <10 EMPLOYEES · SEED STAGE STARTUP

We've created the brain of a super personal shopper that instantly gets everyone. Our proprietary psychographic data and models help retailers know their consumer and what to put in front of them from millions of products.

PSYKHE AI is a Personalization-as-a-Service platform that uses psychology-powered AI to hyper-personalize entire product categories by taking the user's personality into account. Unlike generic product recommendation engines, using personality data as an added layer and anchor – in addition to interactions and purchase data – enables PSYKHE AI's models to behave human-like, and recommend across different categories that include fashion, home & furniture, beauty & grooming, and travel.

KEY SUCCESSES

- Demonstrated 5x revenue increase
- 2023 New York Fashion Tech Lab (selected by Macy's, Saks Fifth Avenue, Burberry, Richemont)
- Founder spoke at The Business of Fashion Technology Summit on AI

CASE STUDY: THALIE PARIS

Disruptive, international sustainable luxury leather brand

Thalie is a muse by whom nature reflourishes.

Thalie embodies Parisian chic and minimalism, and takes sustainable luxury handbags to new heights. We create daring handbags made of innovative, vegan and recycled materials for women who do not want to compromise on styling and functionality but understand the importance of not over consuming while using available resources.

KEY SUCCESSES

- Ready to go to market after 18 months of R&D
- Signed 20 clients and 7 new marketplaces in Oct 2022
- Voted Most Eco-Conscious Luxury Leather Goods Brand in France and Top 12 vegan brand of handbag 2022

FUTURE PLANS

· Raise 1.5 million euros to meet demand

Investing in early stage tech-enabled businesses led by women

THE 98

www.the98.com

JOY MARCUS
GENERAL PARTNER & CO-FOUNDER

LYNDA CLARIZIO
GENERAL PARTNER & CO-FOUNDER

FOUNDED 2022 · NEW YORK, NY, USA · 4 EMPLOYEES · SEED & SERIES A FUND

The 98 will give outstanding female founders the opportunity to take a bigger piece of the pie—the 98% of venture capital they are not capturing now—while generating outsize returns for our investors.

Our vision is to become the premier fund for women entrepreneurs and to realize significant returns by investing in women. Women-led start-ups receive only 2% of venture capital dollars despite generating higher returns on invested capital and exiting sooner. The 98 aspires to give outstanding women the opportunity to take a bigger piece of the pie by providing capital, operating expertise and our networks to fuel growth and build the great companies of the future.

KEY SUCCESSES

Approx \$1.2M deployed to female-led tech businesses:
 Paladin, The Vendry, and Stratyfy.

FUTURE PLANS

 Continue building out investor and founder networks to expand fund size and footprint.

CASE STUDY: THE VERTICALE

Authentic alignment between brands and consumers

THE VERTICALE

www.theverticale.com

FOUNDER & CEO

FOUNDED 2019 · NEW YORK, NY, USA · 4 EMPLOYEES · PRE-SEED STARTUP

Our vision is driven by the core belief that the future of commerce is conscious.

At The Verticale, we power authentic alignment between brands and consumers through a community-fueled shopping experience that infuses social connection and trusted values assignment. By unlocking the shopping experience of tomorrow, we can positively influence consumer consumption at scale, driving network effects that will steer the entire retail and consumer industries toward a more responsible future.

KEY SUCCESSES

 Entrepreneurs Roundtable Accelerator Cohort 20 (Top Tech Accelerator in NYC)

FUTURE PLANS

- · New platform launching March 2023
- \$200M revenue by 2027

CASE STUDY: TO THE MARKET

The new standard in supply chain transparency

TOTHEMARKET

FOUNDED 2016 · USA / GLOBAL · 14 EMPLOYEES · SERIES A STARTUP

www.tothemarket.com

MORRIS

FOUNDER & CEO

TO THE MARKET is a software platform enabling transparency in the supply chain, allowing for retailers, brands and corporations to procure goods and quantify the environmental and social impact of their procurement. Utilizing seamless end-to-end workflow management, TTM provides turn-key supply chain management to our clients which consist of corporations, retailers and brands.

KEY SUCCESSES

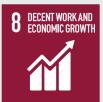

- Clients include Fortune 1000-sized companies like Walgreens, Kohl's, FabFitFun and TD Bank
- Made the top 20% of the 2022 Inc. 5000 list
- · Developed proprietary vetting and vendor score card products
- · B Corp Certified, Women-Owned Certified, and Global Organic Textile Standard Certified

FUTURE PLANS

- \$10M projected 2023 revenue
- \$20M pipeline

CASE STUDY: UNICORN GROWTH CAPITAL

The only women-led Web3 VC fund focused on African markets

UNICORN GROWTH

www.unicorngrowthcap.com

FOUNDER & MANAGING PARTNER

FOUNDED 2021 · NEW YORK, USA / NIGERIA · 3 EMPLOYEES · PRE-SEED & SEED FUND

We are dedicated to transforming finance to unleash inclusive economies powered by the blockchain. This is the time to double down on the biggest disruption in finance for the next decade.

Unicorn Growth backs category-defining companies building next generation financial infrastructure fit for fast-growing markets in Africa, the largest financially underserved market in the world that has leapfrogged into mobile money and blockchain rails. The fund provides an attractive entry into the multi-trillion dollar opportunity to revolutionize finance to be open, embedded and decentralized.

KEY SUCCESSES

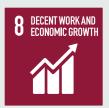

- Completed first close with limited partners that include Celo, an Andreessen Horowitz-backed blockchain company focused on regenerative finance
- Led funding rounds and made investments in 9 FinTech and DeFi companies scaling across Africa, including 3 female-founded companies, with co-investors such as Quona Capital, Softbank, Antler and Coinshares

FUTURE PLANS

 Be the go-to investor for companies transforming finance and scale our AUM across venture capital and debt liquidity to drive financial services across underserved markets

CASE STUDY: UNTAGGED

Build a fashion industry that is fairer for users and the planet

UNTAGGED.

FOUNDED 2019 · LONDON, UK · 5 EMPLOYEES · SEED STAGE STARTUP

www.untaggedfashion.com

FOUNDER & CEO

There are enough clothes on the planet to dress the next 6 generations of the human race.

UNTAGGED exists to build a fashion industry that is fairer for users and the planet, by accelerating the uptake of fashion resale. At UNTAGGED, our mission is to reduce the number of new clothes people buy, by making fashion resale fun and rewarding. The UNTAGGED app turns the process of reselling clothes into a 'gamified' experience where users can earn points, win prizes, and collect digital clothes similar to the 'skins' used in digital games, by trading their secondhand garments.

KEY SUCCESSES

- Successful beta trial with 1000 users showed significantly higher engagement levels vs. other resale platforms
- Full app launching at Graduate Fashion Week in London in June 2023

FUTURE PLANS

 Full UK roll-out in 2023. Extension into digital clothing resale and expansion into Europe/US from 2024.

Transforming athletic dreams into achievable pathways

www.vicitraining.com

NIA MOSBY CO-FOUNDER

MARCO SCARANO CO-FOUNDER

NICHOLAS SANKER
CO-FOUNDER

FOUNDED 2022 · CHARLOTTESVILLE, VA, USA · 4 EMPLOYEES · PRE-SEED STARTUP

In sports, as in life, the right guidance can be the difference between good and great. VICI is that difference.

VICI is revolutionizing athletic development for young athletes through training and mentorship, aiming to bridge the gap between raw talent and peak performance. VICI's platform offers personalized training programs powered by advanced technology and data analytics, complemented by one-on-one mentorship from experienced college athletes. Catering to a diverse range of athletes' needs, VICI democratizes access to elite training methods, empowering aspiring athletes to realize their full potential while also fostering a community where every member can excel and conquer their goals.

KEY SUCCESSES

- Secured partnerships with pro NFL and NBA trainers, sports performance doctor, pro sports psychologist, and brands like Take One Sportswear & Lululemon
- Best Early Stage Startup at UPITCH NJ Pitch Competition
- Gained 1,000+ new members on our free membership

RELATED UNITED NATIONS SDGs

FUTURE PLANS

- · Launch mentorship program linking young athletes with collegiate mentors for tailored guidance
- Start targeted data collection initiative to refine athlete performance analytics
- · Add more sports, starting with women's basketball and soccer in 2024

ACADEMIC PARTNERSHIPS

We are passionate about empowering the next generation of diverse entrepreneurs

Many student entrepreneurs have a strong desire to create meaningful change and address the most pressing societal and environmental issues of our time

Our primary goal is to cultivate a unique skill set in student entrepreneurs – equipping them with confidence, a risk-taking mindset, and resilience We sponsor impact pitch day competitions, commercialization of intellectual property, matched funding and co-investments with university capital

Once funded, we connect students to the global AIV ecosystem and support them through their challenging entrepreneurial journey

We proudly collaborate with educational institutions across the globe

2023 Female Founded Conference Pitch Competition

SEPTEMBER 23, 2023 • PRINCETON UNIVERSITY, PRINCETON, NJ, USA

News article

ALISON LEE

FOUNDER/PRESIDENT,
FEMALE FOUNDED CONFERENCE

ELIZABETH POKU

DIRECTOR OF PITCH COMPETITION,
FEMALE FOUNDED CONFERENCE

MAGGIE WANG
DIRECTOR OF FUNDRAISING,
FEMALE FOUNDED CONFERENCE

The idea of Female Founded began in my female entrepreneurship class, where we learned that women had less of a network and lacked role models. My team is passionate about creating the space for female student entrepreneurs to connect and develop relationships with those who have succeeded. - ALISON LEE

Held in September 2023, the Female Founded Conference was a student-led initiative at Princeton University that offered a platform for students to connect with accomplished female entrepreneurs. The comprehensive program featured keynote speakers, executive seminars, and networking events to foster inspiration and ignite entrepreneurial ambitions.

Ankh Impact Ventures was the exclusive partner for the Female Founded Conference Pitch Competition, awarding a \$25,000 equity investment to the winning start-up business.

WINNER

\$25,000 **VICI**

Nia Mosby, Co-Founder Marco Scarano, Co-Founder Nicholas Sanker, Co-Founder

VICI's mission is to empower the next generation of athletes and transform their athletic journey to college athletics.

VICI is a catalyst for aspiring athletes, breaking down barriers and creating a more confident and inspired generation. The VICI platform not only equips athletes with the physical training they need but also provides clarity, mentorship, and community to ensure that high school athletes maximize their potential.

CASE STUDY: LUCY CAVENDISH COLLEGE, UNIVERSITY OF CAMBRIDGE

2024 Female Founders Prize Pitch Competition

MARCH 10, 2024 · LUCY CAVENDISH COLLEGE, CAMBRIDGE, UK

News article

PROFESSOR DAME
MADELEINE ATKINS
PRESIDENT,
LUCY CAVENDISH COLLEGE

We are delighted to partner with AIV on this trailblazing prize, which will empower young women to develop entrepreneurial mindsets and pave the way for a more inclusive and equitable future, in line with the Lucy vision.

AIV will partner with Lucy Cavendish College, University of Cambridge, to support the inaugural 2024 Female Founders Prize. This initiative aims to empower women entrepreneurs and foster innovation. Student teams will identify an enterprising solution to a challenge relevant to the United Nations Sustainable Development Goals (UN SDGs).

Student and alumna-led teams will pitch for the top prize of up to £15,000 in equity investment from Ankh Impact Ventures. £10,000 in further grant prizes will also be available.

Lucy Cavendish College's mission is to attract, support and unlock the potential of students from non-traditional and underrepresented backgrounds who are driven by a desire to make a difference and who are committed to having a positive and lasting impact on society.

FOUNDER STORY

To solve pressing societal challenges, we must act now and empower diverse groups of change agents by mobilizing wealth.

PIERRE N. ROLIN

FOUNDER & CEO

ANKH IMPACT VENTURES

Pierre N. Rolin is Founder and CEO of Ankh Impact Ventures. A Canadian entrepreneur with over 35 years of real estate investment advisory as well as venture capital experience, Rolin was previously based in London, Frankfurt, and New York and has closed more than 550 real estate investments valued in excess of \$17 billion USD and delivered an average 20 percent net IRR for his clients. Rolin was appointed Global Head of Credit Suisse International Real Estate based in London at the age of 35. Following his career at Credit Suisse, Rolin founded a global real estate advisory firm where he managed assets of \$6.4 billion USD including 125 direct properties and four customised private equity real estate funds.

Rolin is currently Chairman and CEO of Ankh Real Estate, Inc., an independent global real estate investment advisory firm whose clients include ultra-high net worth private investors, foundations, private equity firms, alternative managers, and property developers. Rolin also advises real estate owners and operators on strategic projects including M&A, capital allocation and recycling strategies, take privates, joint ventures, recaps, roll-ups, and platform investments.

In 2006, Rolin established a private nonprofit grant-giving foundation that promoted learning opportunities for gifted underserved youth through art, education, and cultural heritage programs. From 2015 to 2020, Rolin advised and invested in over 20 venture-backed early-stage, growth and late-stage technology companies. Based on these experiences and a desire to create sustainable social impact beyond philanthropic giving, Rolin established Ankh Impact Ventures in 2020 with a new philanthro-capitalist business model to foster impact entrepreneurship by diverse agents of change from all global geographies.

Rolin has shared his experiences at numerous conferences and events globally, such as The World Economic Forum in Davos, The Milken Institute Global Conference in Los Angeles, and the Young Presidents Organization in London.
